

ROBERTSON & DISTRICT SWIMMING POOL COMMITTEE

PRESIDENTS REPORT

I have taken great pleasure in the time I have been president of the Robertson & District Swimming Pool Committee. The Committee as small as it is, has continued to move forward (slowly), through the odd discussion from time to time with anyone involved with the construction or running of heated pools.

The Committee has remained focused in its direction and objectives in order to raise funds for the construction of a heated pool in Robertson.

If anyone is going to construct a heated pool it would be in a climate like Robertson, you don't build a heated pool in warm climates.
